DETAILED ACTION

Election/Restrictions

1. Applicant's argument's regarding the Examiner's restriction requirement is found persuasive. The restriction requirement proposed by the Examiner is here hereby withdrawn and all pending claims will be examined and addressed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. § 102(b) as being anticipated by US 4,938,054 to Dye et al. Dye et al. disclose a system (see Fig. 3) for monitoring the dispensing of paste from a reservoir in response to the application of pressure on the paste from a piston (29) including a position transducer (39) for generating a displacement signal representative of the position of the piston and an signal analysis means (55) responsive to the displacement signal for detecting the rate of displacement of the piston.
4. Claims 1-3 are rejected under 35 U.S.C. § 102(b) as being anticipated by US 4,475,666 to Bilbrey et al. Bilbrey et al. disclose a system (see Figs. 1-3) for monitoring the dispensing of paste/liquid from a reservoir in response to the application of pressure on the paste/liquid from a piston (17) including a position transducer (87, 91, 92, 97, 99) for generating a displacement signal representative of the position of the piston and an signal analysis means (80) responsive to

Art Unit: 2856

the displacement signal for detecting the rate (i.e. velocity/speed) of displacement of the piston (as recited in claim 1); wherein the analysis means compares the rate of displacement with at least one reference rate (via a look-up table) being upper and lower rate limits (Bilbrey et al. cols. 5 and 6).

Allowable Subject Matter

5. Claims 11-20 are allowed over the Prior Art of record.
6. Claims 4-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applicant is invited to review PTO form 892 accompanying this Office Action listing Prior Art relevant to the instant invention cited by the Examiner.
